

LabCorp is a Non-Participating Provider in Aetna's Network

Effective July 1, 2007, Laboratory Corporation of America Holdings (LabCorp) and its affiliates, listed below, no longer participate in the Aetna network.

LabCorp (Laboratory
Corporation of America
Holdings)

DIANON Systems Inc.

Dynacare

Dynagene

National Genetics Institute

Center for Genetic Services

ARL/LabSouth, Inc.

Path Lab, Inc.

ViroMed Laboratories

Esoterix

US Labs

If you go to LabCorp or its affiliates listed above for laboratory services, **your claim/s will be denied**. We suggest that you take the following steps below in order to ensure your lab services are covered.

- Ask your doctor for a laboratory request form for one of Aetna's many participating, preferred laboratory providers.
- Please use Quest Diagnostics (a preferred national laboratory), or one of the other contracted laboratory providers, to keep your out-of-pocket costs lower.
- If you already have a LabCorp request form, you and your physician still have the option to receive services from Quest Diagnostics. Please go to a Quest Diagnostics Patient Service Center and they will be able to assist you.

More information is available

For a list of all participating contracted laboratories in your area, visit DocFind[®], our online provider directory at www.aetna.com or you may call Aetna's Member Services at 1-877-54-AETNA (23862). For a list of Quest Diagnostics locations, visit www.questdiagnostics.com. Remember, by using participating laboratories, you will receive the highest level of benefits.

We apologize for any inconvenience this change may cause. We appreciate your membership and are available to help you at any time. Please call Aetna Member Services at 1-877-54-AETNA (23862) with questions.
